Dear Conscious Creative Powerhouse!

Well done for reading *Lizzie May the Immortal*, a channelled illustrated text designed to be your catalytic portal to reactivate your soul's purpose and reignite your soul mission and legacy!

Before you read the book,

1. What was the purpose of your business? [Tune in and really get honest with yourself] Was it to save you from something? Prove something about you? Earn someone's love and approval? Take care of you or make sure you are OK?

2. **After you read the book,** what visions, impressions. or memories did you receive about your soul mission and legacy? [Tune into your higher self, guides, body and any other medium you use to access your Divine Guidance]

3. Where are you already creating that in your life through your business?

4. What parts of your mission and legacy are still left unaddressed?

5. What ideas have dropped in for how you can incorporate those areas into your current business to expand your ability to receive your Divine Wealth Power?

6. How do you feel about the ideas you have received?

7. What is 1 action step you can take to incorporate your new idea into your business?
